View and Submit College of Arts and Sciences Graduate Student Dissertation Research and Dissertation Completion Nominations

Overview

A guide for departmental reviewers to view their students that have applied for the College of Arts and Sciences Graduate Student Dissertation Research and Dissertation Completion awards and nominate their top 2 students for the College Dean's Office to review.

Process

All eligible students will submit their applications for the Dissertation Completion or Dissertation Research fellowships directly in IU Scholarships through a single opportunity application called the "IUB-College of Arts and Sciences Dissertation Research & Completion Fellowships."

The student's application will push a request to two recommenders to upload their recommendation letters. Please note that these recommendations do not need to be uploaded prior to being considered by their department, but the department will need to have both for the students they wish to nominate prior to submitting their nominations.

Appointed departmental users will review and select (up to) 2 nominations across both fellowships. **Only one departmental representative** will submit the nominations, though several users may have access to review applications.

The College Graduate Office will receive departmental nominations and select award winners. The fellowships will be posted in IU Scholarships by the College Graduate Office.

Departmental users will not be able to see final selections made by the College Graduate Office in IU Scholarships but will be notified by the College Graduate Office directly.

Steps

1. Sign into your One.IU account, <https://one.iu.edu>.
2. Search for "scholarships" or "IU Scholarships" in the search bar.

3. Click on the 'IU Scholarships' tile.

- Review all applicants and their materials and determine the two students you would like to nominate to the College for review.

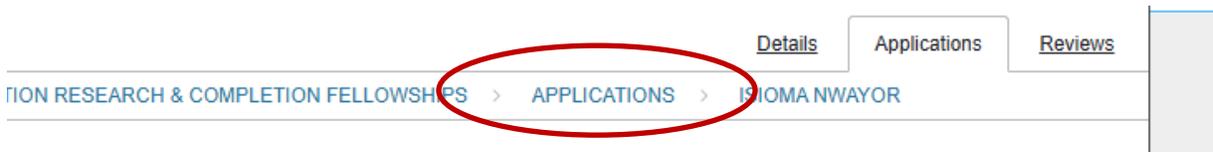

NOTE: **Only one departmental representative** will submit the nominations, though several users may have access to review applications

NOTE: Please ensure both letters of recommendation have been completed for both students you would like to nominate. They will appear linked below questions J & K if the faculty recommender has completed their upload.

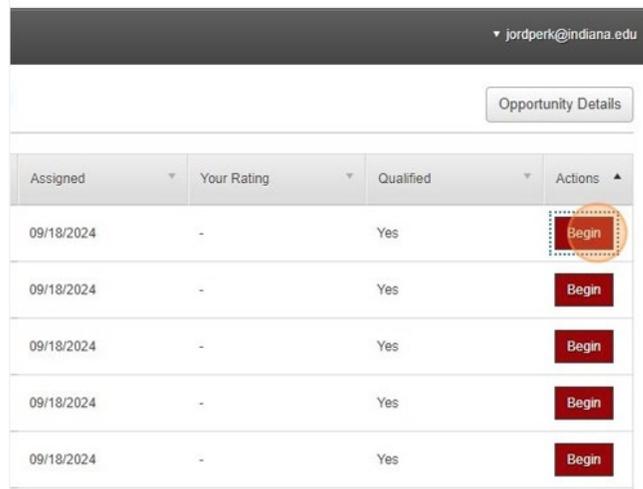

If you have received their letter of recommendation directly from the recommender instead of via the upload in IU Scholarships, you will need to administratively add the letter to the student's application. Please use the [Admin Document Upload Guide](#) to attach their letter.

If the recommender has neither completed their upload nor sent you their letter directly, you may need to reach out to the individual to encourage them to upload their letter. The College IU Scholarships team has created a [Recommendation Letter Upload Guide](#) and departments are encouraged to send this to recommenders if they are unsure how to complete their upload.

- Navigate back to your full list of students by selecting "Applications" in the top navigation bar.

- Open the profile of the first student you'd like to nominate by selecting "Begin" next to their name.

The screenshot shows a table with columns: 'Assigned', 'Your Rating', 'Qualified', and 'Actions'. The first row has a 'Begin' button circled in red.
